

drawalert 4.0

Construction Administration Software

About DrawAlert

- ✓ Built for the industry by the industry
- ✓ Cost Effective
- ✓ Faster Pay App Processing
- ✓ Significant Data Input Reduction
- ✓ End to End Document Management
- ✓ Streamline the Close Out Process
- ✓ Collaborative for All Stakeholders
- ✓ The Technology is a Differentiator

How It Works

DrawAlert is a collaborative, cloud-based software used by all parties on a construction project. By utilizing DrawAlert, the entire team – from lenders to owners to prime contractors to subcontractors to suppliers – has access to all required documentation for a construction project with visibility to all relevant stakeholders.

Save Time | Reduce Costs | Improve Results

DrawAlert supports document compliance & funds control for all stakeholders on construction projects
